

# Protective measure to the Novel Coronavirus

We are observing the "Guidelines for Corresponding the Novel Coronaviruses on Chartered Buses" issued by The Nihon Bus Association.

→The Nihon Bus Association : <http://www.bus.or.jp/> (Japanese ONLY)

June, 2020

Kansai Airport Transportation Enterprise Co., Ltd.

## Requests to our passengers

- Wearing mask (please be sure to bring mask)
- Using Hand Sanitizer  
(Hand Sanitizer is provided in the bus)
- Please be aware of social distancing when getting on and off and while seated.
- Recommendation to open the window slightly to let in fresh air. (The air conditioner may not work well because the outside air is introduced.)
- Please refrain talking and eating or drinking while boarding.

## Requests to Organizer, Group Leader and Travel Agent

- Ascertaining the physical condition of passengers before boarding.
- Securing longer breaks in service areas etc.

## Protective Measure

### ◆Driver◆

- Health management (measurement of body temperature before driving / Health check from face to face by operating manager before and after driving)
- Wearing mask
- Tries to replace the fresh air (while driving and breaks)

### ◆Bus◆

- Bus with plasma cluster (Exclude some bus)
- Use of air conditioner in outside air introduction mode (The air inside the bus keeps changing in about five minutes.)
- Cleaning and disinfection of bus (frequently than usual)
- Set up an Air Disinfection in the bus.
- Hand Sanitizer is provided in the bus.

Thank you for your kind understanding.
